

Know your Child's Learning Style

Different learning styles require different approaches and techniques. Unlike traditional educational approaches that use general concepts, modern learning methods focus on a student's specific behaviour, as well as his individual skills and weaknesses.

By adjusting your teaching and parenting to fit your child's learning style, you will create a strong foundation to improve their educational achievements.

This workshop aims to help parents and teachers:

- Develop an understanding of various learning styles.
- Learn how to encourage learning at home and in school.
- To appreciate their own learning styles so that they can adjust their approaches accordingly.
